

# The First International Symposium on Nanomaterials and Membrane Science for Health, Water, Energy and Environment - October 11<sup>th</sup> and 12<sup>th</sup>, 2018 - Marrakech - Morocco

## CALL FOR PAPERS

**The First International Symposium on Nanomaterials and Membrane Science for Health, Water, Energy and Environment - ISNMS 2018**

**October 11<sup>th</sup> and 12<sup>th</sup>, 2018  
Marrakech – Morocco**

Organized by

**Moroccan Membrane and Desalination Society  
and  
Laboratory of Materials Membranes and  
Environment - University Hassan II of Casablanca**

Nanomaterials grow rapidly and affect many aspects of everyday life. Hundreds of products already use nanomaterials. These nanomaterials offer new opportunities for technological innovation because they have new mechanical, biological, electrical, optical and magnetic properties.

Among the most interesting applications of these nanomaterials, the development or modification of membranes used in different separation technologies offers great opportunities to meet ever stricter regulatory and efficiency requirements.

The symposium aims to bring together academics, researchers and stakeholders from all sectors active in the fields of nanomaterials and membrane science.

### Topics of the Symposium:

- Nanomaterials and Membrane for Health**
- Nanomaterials and Membrane for Water**
- Nanomaterials and Membrane for Energy**
- Nanomaterials and Membrane for Environment**
